

JOBOX[®]

ON-SITE CHEST

Unmatched Security, Versatility and Durability

Site-Vault[™] Security System

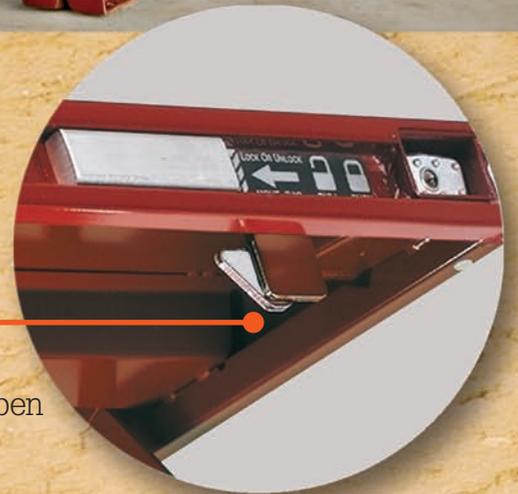

Nearly 50% stronger than competitive locking systems

- 3-Point lock engagement is virtually impossible to bend or pry open
- Fluorescent orange tape indicates when the chest is unlocked
- Bolt cutter proof padlock housing
- Patent pending

EZ-Loader[™] Skid Bolsters

Fork lift accessible from all sides

- 7-Gauge, one-piece steel bolster construction resists damage when dropped
- Bolsters are fully welded to the box and feature deep embossed reinforcement
- Casters install with 5/16" self-tapping bolts
- Patent pending

PREMIUM STORAGE SOLUTIONS

Site-VaultTM Security System

3-Point lock engagement

- Three locking points versus competitive locking systems that only feature two locking points
- Padlock is completely housed in a fully-welded 12 gauge steel casing making it impossible to knock out during an attempted break-in
- Fluorescent orange tape indicates when the chest is unlocked, making it easy to check at night and from a distance
- Patent pending

EZ-LoaderTM Skid Bolsters

Forklift accessible from all sides

- Easily load and unload heavy chests from trucks
- Safely move heavy chests to upper levels of buildings
- One piece skid bolster construction reinforces entire box end for heavier load capacity
- Patent pending

HEAVILY REINFORCED LID

- Lid bolster resists bending from cargo placed on top of the box and from attempted break-ins

RECESSED HANDLES

- Extra tall and deep recess areas prevent pinched fingers and damage to the handle

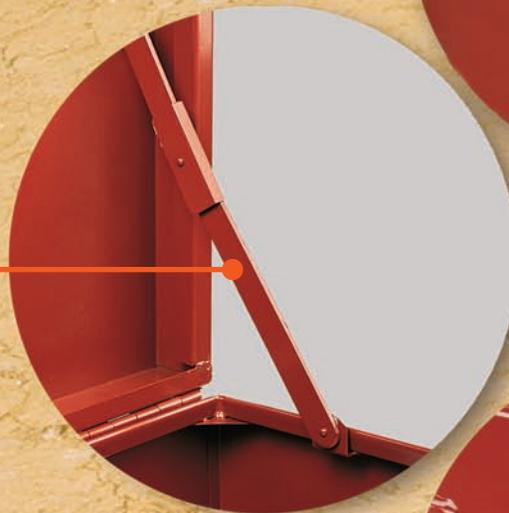

GRIP RITE™ CHANNELS

- Easy to grip the lid when wet or wearing gloves. Also provides lid reinforcement.

HEAVY-DUTY LOCKING ARMS

- 1" wide locking arm resists bending and locks lid securely into position

STAKED AND WELDED HINGE

- Rugged 14-gauge steel 3/8" continuous hinge with 1/4" steel pin and extra-large 1" knuckles. Staked and welded pin cannot be driven out.
